2016 SIPA Building Excellence Awards

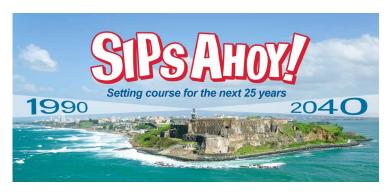

Official Entry Form

APPLICATION DEADLINE: March 4, 2016

The Structural Insulated Panel Association (SIPA) is hosting the fourteenth annual Building Excellence Awards to recognize association members that build exemplary projects using structural insulated panels

(SIPs). The competition allows SIPA members to showcase their best work while demonstrating the design flexibility, sustainability and energy efficiency possible with SIP construction.

Winning entries will be showcased at the 2016 SIPA Annual Meeting in Puerto Rico, April 4 - 6, 2016

Homes and commercial buildings completed between January 1, 2015 and December 31, 2015 are eligible.

Award Categories:

- Single Family Homes over 3,000 sq. ft.
- Single Family Homes under 3,000 sq. ft.
- Multifamily
- Agricultural
- Commercial/Industrial/Institutional Buildings under 10,000 sq. ft.
- Commercial/Industrial/Institutional Buildings over 10,000 sq. ft.
- Renovations (residential or commercial, includes additions and retrofit insulated panels)
- Affordable Housing (excludes multifamily, home ownership cost must be at or below 30% of median income for location)

Who is Eligible?

- The submitting company must be a current SIPA member in good standing
- Structural insulated panels must be used on a minimum of 50% of the building envelope, determined by square footage of exterior walls and roof
- The SIPs used on the project must be provided by a SIPA member manufacturer
- Installers, designers or other parties involved in the project who are not SIPA members will not be recognized in awards materials. However, builders or architects may apply for membership with their entry, but must be full members in good standing prior to the closing date for the entry to receive recognition.
- Project must be completed between January 1, 2015 and December 31, 2015

Winning Entries

- One winner will be chosen from each category. From the category winners, an Overall Competition Winner and a Runner-Up will be named.
- Judges may hand out Honorable Mentions at their discretion
- Winners will be recognized at the 2016 SIPA Annual Meeting & Conference in San Juan, Puerto Rico
- SIPA will promote the winning entries on the SIPA website and issue a press release to outside media

Guidelines

- Member companies may make multiple entries, but a separate entry form must be completed for each entry
- SIPA has the right to use the photos to promote SIPs to the construction industry. All entries will be displayed on the SIPA website.
- The deadline for entries is March 4, 2016. All entries must be received at the SIPA office on or before that date.

The following information and documentation is REQUIRED. Entries without the required items will not be considered.

- Completed and signed application
- A minimum of two photos showing different views of the completed project
- Photographs must be submitted in digital form and be at least 2400 x 3000 pixels, or 8" x 10" at 300 dpi
- Residential projects must have a HERS Index calculated by a RESNET certified home energy rater. Commercial projects must present other documentation of energy efficiency.

Additional documentation is not required but is highly recommended to give the judges a clear picture of the project's overall design, sustainability, systems integration, and energy efficiency.

- Additional photos showing the construction process and SIP installation
- Documentation of energy efficiency, such as a HERS report,
 blower door test results, utility bill data, or infrared thermography
- A thorough description of energy-efficient technologies other than SIPs, as well as other innovative or sustainable features
- Comments from the building owners regarding their satisfaction with the building
- A floor plan of the project. A single page line drawing no larger than 17" x 22" in size is sufficient. Please do not send full blueprints.

Judging Criteria

Each entry will be judged on the following criteria:

- Energy efficiency (quantified by HERS Index and other data)
- Design and structural engineering innovation
- Creative use of SIP construction
- Environmental sustainability

SIPA Building Excellence Application (Page 3 of 4)

Please list any certifications the project received, such as ENERGY STAR, LEED, National Green Building Standard, or local green building programs. Only list certifications that are completed:				
2005 EPAct Tax Credit				
HERS Index (residential projects): 36				
Blower door test results (ACH50) (residential projects): 1.22 ACH 50				
Energy use intensity in kBtu/ft2 (commercial projects): $ m n/a$				
Describe the HVAC system used on the project: Radiant floor heat for main level provided by 95 AFUE boiler.				
Forced air heating for upper level provided by 96 AFUE furnace with variable speed blower.				
Forced air, zoned cooling provided by 14.5 SEER air conditioner with variable speed blower				
air handling device.				
Describe any other energy-saving materials used in the building envelope other than SIPs. List U-values of windows used and the R-value of any insulation materials.				
Windows U-Value 0.260, SHGC: 0.410				
, and the second of the second				
Please list any energy-efficient products or design features, such as lighting, hot water heating, appliances, passive solar:				
Potable hot water heating is supplied from boiler to indirect storage tank. The combination of				
the devices provides an effective water heating efficiency (CAef) of .82				
the devices provides an effective water heating efficiency (Greet) of .52				
Were any color papels installed on the project? If as indicate the size of the system: NO				
Were any solar panels installed on the project? If so, indicate the size of the system: No				

SIPA Building Excellence Application (Page 4 of 4)

Any additional comments on the project: Four bedrooms, four and one-half baths. Slab-foundation home was completed in just six months and utilized 13,266 sq. ft. of SIP panels. CHECKLIST If My company is a SIPA member. Panels for this project were manufactured by a SIPA member. If have answered ALL the questions completely If have enclosed the two required electronic images of the completed project meeting the requirements stated in the SIPA Building Excellence Awards guidelines I have indicated the HERS Index as determined by a RESNET certified home energy rater (residential projects) PLEASE CONFIRM: I have read and understand the rules for this competition. This entry is structural insulated panel construction as defined in the SIPA Building Excellence Awards guidelines. I understand by making this submission that my pictures will be used by the Structural Insulated Panel Association (SIPA) to promote the use of structural insulated panels. I hereby give permission to SIPA to use the enclosed pictures for any use they see fit in that endeavor. I understand that where possible. SIPA will give credit for pictures used to my company as listed above.	Please list any sustainable materials or de-	sign features not listed above, such as recycled materials, low-VOC finishes, landscaping, etc.: n/a
CHECKLIST ☑ My company is a SIPA member. Panels for this project were manufactured by a SIPA member. ☑ I have answered ALL the questions completely ☑ I have enclosed the two required electronic images of the completed project meeting the requirements stated in the SIPA Building Excellence Awards guidelines ☑ I have indicated the HERS Index as determined by a RESNET certified home energy rater (residential projects) PLEASE CONFIRM: I have read and understand the rules for this competition. This entry is structural insulated panel construction as defined in the SIPA Building Excellence Awards guidelines.
