Designed and Built By:

Bliss Building, Inc
Terry Bliss
14165 Big Stoney Drive
Park Rapids, MN 56470

Panels Manufactured By:

Extreme Panel Technologies, Inc.

Energy efficiency as demonstrated by other SIP homes built in the area by Bliss Building. Word-of-mouth recommendations helped bring the builder, manufacturer and home owner together on this project.

Labor saving is a big factor on this project. This builder is committed to using SIPs as the only way to build high performing and energy efficient buildings. Consistent satisfaction is key the builder won't build any other way.

SIP foundation, vaulted ceilings on upper level, dormers facing the lake for a great views are all factors contributing to the high performance and high level of customer satisfaction on this project.

Other key features: Propane Forced Air System HVAC. Reclaimed material from old structure that was onsite to finish interior of home.
